Radio jamming

Radio jamming is the deliberate jamming, blocking or interference with authorized wireless communications.
JAMMING RESISTANT ENVIRONMENT

MOBILE INTERFACES
Intuitive & Full of Features

EQUIPMENT
Mobile Equipment that communicates

MACHINERY
Stationary Machinery that communicates
Our solution is a coded data set containing only digits.

We use several IoT networks in parallel to achieve the best possible coverage.

The maximum amount of data that can be transferred is 12 bytes.

The most important problem is the global network coverage.

We use several IoT networks in parallel to achieve the best possible coverage.
PRODUCTS AND SERVICES

- Super small multi sensor long time tracking devices.
- Multiple options like global return logistics available.
- Cutting Edge Portal with functions like 1-click Geo Routing.
- No Datacost, No Recharging, No Maintenance.
